

## MEMO

As a memo, PPV One Hope Charity will be completing all first dose vaccines on 9th September 2021.

After 9th September, PPV One Hope Charity will be focusing on the second dose for receivers who took their first dose with us. Hence, PPV One Hope Charity will be operating for second dose vaccine.

PPV One Hope Charity will be strictly operating following MySejahtera's appointment. The date and time will be given to the second dose receivers, and we are still following strict SOP to ensure that everyone is safe.

Further, for second dose receivers who rescheduled their appointment due to certain issues, please follow the new appointment date and time and come forward for vaccine.

“Lindung Diri, Lindung Semua”. Protect yourself and others, get vaccinated! To increase the vaccine rate of Penang especially Seberang Perai Tengah, One Hope Charity Vaccination Centre had begun our operation to help our country to achieve herd immunity.

Please stay safe! This is our wish and hope for everyone and we hope that we can break the chain of infection sooner.
